TRUST PROJECT RESULTS ADVANTAGES

The **European Destructive Testing Technician (EDTT)** Qualification standard being develop in TRUST project will allow:

- To **acquire** or **improve** their competences in the DT of welded joints;
- Recognize their **skills** and **abilities** to perform DT;
- Increase their **opportunities** for professional development, motivation and satisfaction, in line with the European Union's targets and with **ERASMUS+ programme** objectives **to increase** labour market relevance of VET by mitigating skills mismatches and shortage of personnel working in the Manufacturing sector.

Also, recommendations for the implementation of the **EDTT Qualification standard** by other VET Systems at European level will be developed aiming to provide **conditions** for fostering, in a **successful** and **quick way**, the implementation of the **project's results** on European countries outside the partnership.
